SUMMARY — As a recent BSc Computer Science graduate focusing on front-end development, I am proficient in HTML, CSS, and JavaScript, with experience in frameworks such as React and Angular. I have a solid understanding of responsive design principles, user interface development, and browser compatibility. My coursework included advanced topics in web technologies, enabling me to create intuitive and engaging user experiences. I am eager to apply my skills in a professional setting, contributing to projects that emphasize usability and creativity in web development.

HARD Skills

Web Development: Html5 , Css , Js , Reactjs
Databases: SQL , MongoDB
Languages: C , Python
